Address: No.387/5, Bandarapothana, pubbogama, Kekirawa, Anuradhapura, Sri Lanka

PROFILE

Highly motivated Higher National Diploma in Information Technology (HND IT) student at SLIATE Anuradhapura with a strong foundation in software engineering, full-stack web development, mobile application development, and desktop application development. Proficient in HTML5, CSS3, JavaScript, Node.js, Electron, MySQL, Flutter, XML, and Object-Oriented Programming (OOP). Experienced in designing and developing responsive web applications, database-driven systems, and academic software projects. Currently expanding knowledge in Artificial Intelligence, Deep Learning, and Computer Vision through practical projects. A quick learner with excellent problem-solving, teamwork, and communication skills, seeking an internship opportunity to apply technical knowledge, gain industry experience, and contribute to innovative software solutions.

OBJECTIVE

To secure an Information Technology Internship with the opportunity to work as an Information Technology Specialist, utilizing my skills in software engineering, full-stack web development, mobile application development, database management, and AI technologies while gaining hands-on industry experience and contributing to the success of the organization.

EDUCATION

Higher National Diploma in Information Technology (HND IT)

SLIATE Anuradhapura (2024 – Present)

- Database Management Systems
- Software Engineering
- Web Application Development
- Networking
- Cybersecurity Fundamentals
- System Analysis and Design

G.C.E. Advanced Level 2022 (2023)

Dharus Salam Arabic College - Oddamavadi

G.C.E. Ordinary Level (2019)

Dharus Salam Arabic College – Oddamavadi

WORK EXPERIENCE

Frontend Web Developer

5 Months Experience

Responsibilities:

- Developed responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Improved user interfaces and user experience.
- Implemented client requirements and website functionality.

Graphic Designer

2 Months Experience

Responsibilities:

- Designed marketing materials and digital graphics.
- Worked with Adobe Photoshop and CorelDRAW.
- Created visual content according to client requirements.

SKILLS

- Proficient in HTML5, CSS3, JavaScript (ES6), Node.js (Express.js), MySQL, Dart, and Electron for web and desktop application development
- Skilled in developing responsive, user-friendly, and database-driven applications
- Experienced in using Git and GitHub for version control and collaborative software development
- Proficient in Visual Studio Code, Cursor AI, XAMPP, and MySQL Workbench for application development and database management
- Skilled in using Adobe Photoshop and CorelDRAW for basic graphic design and digital content creation
- Competent in Microsoft Word, Excel, PowerPoint, and Access for documentation, presentations, data management, and reporting
- Strong understanding of database design, SQL queries, and data management using MySQL
- Able to learn new technologies quickly and adapt to changing project requirements
- Strong problem-solving, communication, teamwork, leadership, and time management skills
- Committed to producing high-quality work with attention to detail and continuous learning

CERTIFICATES

- Python for beginners- University of Moratuwa
- Certificate in psychology- NKB Studies and media collage
- Certificate in Spoken English – Vidura faculty of English
- Python programming using Visual Studio code – Microsoft Learn Student Ambassador
- Certificate of moulavi - dharus salam arabic college

PROJECTS

AI-Powered Cybersecurity Awareness Chatbot

Technologies: Python, Flask, Electron.js, HTML5, CSS3, JavaScript (ES6), MySQL

- Developed a desktop-based cybersecurity awareness chatbot using Flask (Python) and Electron.js.
- Implemented secure user registration, login, and authentication with MySQL database integration.
- Designed an interactive chatbot interface using HTML5, CSS3, and JavaScript.
- Integrated cybersecurity awareness quizzes to improve users' knowledge of online security best practices.
- Implemented phishing URL detection to identify potentially malicious websites.
- Added web search functionality to provide cybersecurity-related information and learning resources.
- Developed database-backed logging for user activities, quiz results, and chatbot interactions.
- Managed CRUD operations, database connectivity, and user/quiz management using MySQL.
- Applied secure coding practices and client-server architecture to build a reliable desktop application.

Gamified Student Knowledge Level Identification System

Technologies: HTML5, CSS3, JavaScript (ES6), Node.js, Express.js, MySQL, JWT Authentication, RESTful API

- Developed a web-based student knowledge assessment system using HTML, CSS, JavaScript, Node.js, Express.js, and MySQL.
- Implemented secure user registration, login, and JWT authentication features.
- Designed gamified quizzes with scoring, levels, and progress tracking to enhance student engagement.
- Developed responsive dashboards for students and administrators with real-time performance monitoring.
- Integrated MySQL database for user management, quiz data, and assessment results.

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript (ES6), Bootstrap 5, Responsive Web Design

- Developed a responsive personal portfolio website using HTML, CSS, JavaScript, and Bootstrap.
- Showcased projects, technical skills, and certifications.

ADDITIONAL INFORMATION

Languages:

- Tamil – Fluent
- English –Intermediate
- Sinhala –Intermediate

Nationality:

- Sri Lankan
